Subject: Abandoned Coal Loadout, Mohrland Road, T 16 S, R 8 E, Section 10 S 1/2 of the SW 1/4, Parcel L2-61-4 - 77.42 Acres, Emery County, Utah

Dear Mr. Ainscough:

The Division of Oil, Gas and Mining is responsible for the regulatory oversight of coal mining activity in the State of Utah under the Surface Mine Control and Reclamation Act of 1977 (SMCRA). It has come to our attention that the subject site is located on property owned by Intermountain Power Agency. Your name was associated with the parcel according to records from the Emery County Assessor office. Please refer to the attached aerial photo and map for location information.

The Division has reason to believe that this operation is an inactive coal load out facility that was once operated by Genwal Resources. Coal operations that serve strictly as a load out facility are not subject to regulation under SMCRA, and therefore are not required to be permitted under the rule. We would like to confirm that you are aware of this facility and would also like to discuss reclamation options with you if no future activity at the site is planned.

Please contact us at your earliest convenience at (801) 538-5350 or April Abate at (801) 538-5214.

Sincerely,

Daron R. Haddock
Coal Program Manager
